October 2012

Dear Parent/Carer,

Supporting Homework

AES would like to launch ShowmyHomework, an on-line service which is free to access and which enables you to see the homework set for your child, when the deadline is and what resources have been given to support this. The service will also send reminders to the student about homework deadlines in order to support their management of homework tasks.

Simply visit the school website by typing in www.aesessex.co.uk. On the school homepage, you will see a button called **'Show My Homework'**.

Please click on this button to display a calendar view, showing the dates when homework has been received and when it is due for collection. Use the filters at the top to identify homework set by a particular subject, teacher

We hope this service will provide parents with a better understanding of what homework is set, how often and when the work is due in order to support students better manage their independent study. More importantly, we hope it will benefit your child by displaying all their homework and deadlines on one page, helping them to use their time mo re effectively and become more organised.

If you have any comments or feedback about this service, please email enquiries@aesessex.co.uk.

Yours sincerely,

Mrs J Gee
Deputy Headteacher
