

# IB Ab Initio Chinese Upper 6th

## Curriculum Intent

The Chinese department seeks to develop ambitious and resilient linguists who recognise their common humanity and strive to gain inter-cultural understanding and respect.

In this beginner's course, we aim to provide an understanding of Chinese in a range of themes from social changes, and global issues which enable students to communicate effectively in authentic situations whilst appreciating its value in their future career paths. We intend to develop our students to be inquisitive and curious about culture, knowledgeable and understanding, open-minded and courageous as they personally develop through their learning of Chinese.

## How will we assess impact?

Our teaching encourages regular learning of key vocabulary and refinement of grammatical structures that are tested regularly. Vocabulary recall is developed via weekly 10-point tests. Teachers assess pupils less formally in class via the four skills of listening, reading, speaking and writing. Pupils work collaboratively in pairs and groups to constantly improve their speaking skills, providing peer feedback.

Each half-term pupils take an assessment in test conditions during lesson time. In June of Lower Sixth pupils take a full-length IB-style examination, which helps to predict their final grade as accurately as possible and to offer the students an opportunity to experience the speed and attention to detail required in the examination.
