

# IB Standard Russian U6

## Curriculum Intent

The Russian department seeks to develop ambitious and resilient linguists who recognise their common humanity and strive to gain inter-cultural understanding and respect.

We aim to provide an understanding of Russian in a range of themes from social changes, global issues and history which enable students to communicate effectively in authentic situations and are prepared for the challenges of developing the language at a higher level and with an aspiration to continue the language at University or to at least see its value in their future career paths. We intend to develop our students to be inquisitive and curious about culture, knowledgeable and understanding, open-minded and courageous as they personally develop through their learning of Russian.

## How will we assess impact?

Our teaching encourages regular learning of key vocabulary and refinement of grammatical structures that are tested regularly. Vocabulary recall is developed via weekly 10-point tests. Teachers assess pupils less formally in class via the four skills of listening, reading, speaking and writing. Pupils work collaboratively in pairs and groups to constantly improve their speaking skills, providing peer feedback.

Each half-term pupils take an assessment in test conditions during lesson time. In January of the Upper Sixth pupils take a full-length IB-style examination, which helps to predict their final grade as accurately as possible and to offer the students an opportunity to experience the speed and attention to detail required in the examination. Final speaking examinations will take place in February/March in which students explore the themes and the culture of the Target Language.

## International Opportunities

### Visits Programmes

- Those students who have taken part in the study visit to St Petersburg & Moscow in March will be asked to share their experiences with other students and visitors.
- University visits or cultural day visits may be arranged.

### Within the curriculum

- 1-1 sessions with a volunteer Native Speaker to develop speaking skills and wider cultural understanding.
- The IB curriculum is designed to deepen understanding and appreciation of Russian culture and customs.
- Students are encouraged to research each theme beyond lessons and set work to ensure that they can draw on a wide knowledge of the culture and society.
