

Dear Year 7,

My name is Tito, I'm in 7M. I'm currently learning German + Spanish. When I first joined AES, I was worried about getting lost when in and out of school, and not being able to deal with the homework, but now I've gotten used to where everything is. The homework also isn't too much, and the tasks can actually be really fun (sometimes). I was most excited about having new friends especially because the school is so much bigger. My favourite subject has definitely been art, because the lessons are always really nice, and you get to do so many fun projects.

I joined the Art Club and the Basketball Club, which are both good clubs, and I've also made new friends there, and improved both skills. I'd recommend any of the sport clubs at lunchtime as it gives you something to do when lunch gets boring. We just came back from Ebbw Vale, and it's something to really look forward to. My favourite activities were the planetarium, the disco, and visiting Belgium. You get to share a room with all of your friends, and it's a nice break from school. Enjoy Year 7, and look forward to everything.

FROM TITO

Hola! Bonjour! Hallo! These are ~~more~~ less than half the ~~languages~~ languages you can learn with your time ~~at~~ ^{at} Anglo European which give endless possibilities to ~~be~~ succeeding.

I'm Amara and I'm in 7M. I picked Spanish as my option and then got German and Spanish which I was very happy about. Even if you may not enjoy your languages, you will make a ton of new friends and will grow to love it. I wasn't able to join in on the summer school and induction day so I was extremely worried that everyone would have found their own friends. That was partly the case but many people will be as worried and nervous as you are and will be happy to be friends. I was mostly excited about the opportunities Anglo were giving me and the languages I would learn. My favorite subject is PE since I've always loved sport especially when it's sports day. My biggest challenge this academic year would most likely be finding new friends and I found a few friends who I now love. My favorite part of Obblighens was making new friends and getting closer to other people. My tip for year 7 is NEVER run to class if you late!

Amara Kaban 7M

To the New year Ts,
My name is Louise and I'm in 7M
I study Spanish and German. I was
really worried at first about not knowing
where my ~~classes~~ ^{classes} were
but the teachers and students are
very helpful. I was most excited
about not being stuck in one class room
all the time for different lessons and
to also make new friends. My favourite
Subject this year has been a few like
goodtech as you don't have that in
primary but also history and P.E! The
~~reasons~~ reasons why, is because history
you learn alot more than you would
in primary and P.E because you
do many different Sports. My biggest
challenge in Year 7 was to accept it
all, It can be very hard when you
Join a new School especially when
you go from being the oldest to the
youngest. You get this and its really
not that scary after a few weeks.

- Louise

Dear new year 73,

My name is Constantin and I am in 7M. I study Spanish and German and I take the train to school every day. Don't be afraid to get things lost in school. Always work hard and never give up, no matter the subject. I was excited about seeing the my friends that I met on induction day. I recommend football club that is runned on Friday. My favourite subject is P.E because I enjoy to playing sports. The best part of E.tringham was free time being able to walk around a town with your friends, it was all really fun. I advise you to make as many many friends as possible.

From Constantin,

Good luck.

To the new year 7s

My names Amelia and I'm in 7M and I Study Spanish and German. I was really worried at first of not knowing where your classes are but so many teachers are really helpful and you get the hang of it after a couple of days. My favourite subject is probably PE because I like sports and the teachers are nice. You get taught a variety of sports and football is the most fun coz you get to go to tournaments. Psg is new and its good and you get to skip a lesson. Ebbingham is so worth it and you would regret it if you didn't go, its the best part of the year by far.

Mabel 7m/8m

I currently doing Spanish and German. I always wanted to learn Spanish but I wasn't really bothered about German, after learning them for a year I'm happy that I'm keeping those languages.

It might seem like a big change coming to secondary school but in reality it's not scary at all.

The school are doing a partnership with Paris-saint-Germain (PSG) and that offers 2 hours every week of football training with pro coaches. That is only one of the many opportunities AES provide.

Subject wise I don't have a favourite. ~~but~~ One thing I'd remember when joining AES is to have ~~an~~ an open mind for everything. Your opinions^s on most things will change, you'll enjoy different sports and like different subjects.

You also gonna meet loads of new people.
