

Welcome to Anglo European School!

Dear Year 7's,

When I first started, I remember thinking that I wasn't going to fit in / I wasn't going to be able to handle all the hard work, but turns out it was all going to be fine!

My personal favourite subject has to be drama because it is very fun and you get to express yourselves through your acting skills! At first, you get a bit nervous to stand up in front of everyone, but you will definitely get used to it. When you first see the timetables, you might think it's like cracking a code, but when you get used to it, it's all going to be fine!

Around the end of year 7, you go on a trip to France - Ebbwingham. If you don't go, you go through something called fringe week.

Bye! Hope you enjoy this school!

Dear Year 7,

Welcome to the Anglo family - I know how nervous you are, but honestly you should enjoy every moment you can get. My favourite subject is PE it is so fun and you can spend even more time with different people in different forms. At first I ~~thought~~ thought I would get lost but there were teachers around ~~me~~ me to guide. The timetable may be a bit confusing at first but ~~after~~ after a week I got the hang of it and I'm sure you will find it easier than you think. I joined the netball ~~club~~ club and got into b team. It helped me expand my friend group and make fun memories. I would recommend going to clubs ~~whether~~ whether you go to the debate team, a sports club, or something to do with the arts. My one piece of advice is take in every moment it will be over before you know it.

Good Luck and have fun!!

Dear new year 7s,

I know that you are feeling very nervous to go into secondary school but you really have nothing to worry about. So, just relax and remember that starting secondary school is also very exciting!

Welcome to Anglo! Anglo European school has so many opportunities to offer, including: going to France in Y7, going on exchanges and trips, sporting events, Eisteadford (talent show), and many, many more.

When I started Anglo I was quite shocked to see that there are so many days in the timetable but now I understand it and I've realised how simple it is!

Going to Ebbingham (in France) was such an incredible experience for me, I made so many new friendships and learnt so much about history! I got to eat snails! (don't worry they are actually sort of nice. :))

I live quite far away from school so I have to take a 1 hour bus journey every day (on the way there and the way back!) It's a long journey but it gives me time to, check my homework, talk to friends, and relax before (or after) school!

Make sure to be on top of your work and don't argue back to teachers if you forget your homework, etc.

Good luck for year 7 and enjoy every minute (it goes so fast!)

Dear Consecutive Year 7 pupils,

- ✦ Welcome to the Anglo Family! A collaborative and linguistic school aiming to help and guide you as you grow and achieve at our school. You are going from top to the bottom of your school: it's a big, bewildering transition but don't fret! Student Services in C block are there to hear your voice... Sell a Talk-To-Nish mentor: they'll be sure to advise you. There is nothing to worry about. My favourite subject is hard to choose as Anglo provides unique experience and on-curriculum games making it immersive and interactive. If I had to decide, I would pick English as I always had a knack for writing! Science and History may seem boring but in secondary we have experiments, investigations and more fun ways to learn. You can also get ~~many~~ recognised in many ways like I induction speeches, award evenings, Linguist of the month and ~~the~~ student of the term. So do not be afraid to let your creativity out and knowledge flow. Doing extracurricular clubs personally helps me with this. One I have joined is debate club where I can improve social skills and public speaking. The highlight of the year was most definitely Ebbingham (the residential trip) where I gained recognition and knowledge about WW1, WW2, food authenticity, French and many other topics! It was truly the best experience of my life with bonding and learning. One piece of advice I have is to talk. Talk to others, teachers and make yourself welcome. Just let it all out. You won't regret your decision to join Anglo...
