

Year 8 work

Breakfast

After you've had your breakfast, DON'T tidy the dishes and food remnants away.

Your task –

Do an observational study of the things that are left over from your breakfast.

This might a study of dirty pans, plates, dishes, cutlery, cups, egg cups, egg shells, whisks, wrappers or half eaten food and crumbs.

Your study can be a line drawing, tonal drawing, painting, pastel or coloured pencil drawing.

Make sure that the object/s is/are big and fill the paper – don't have too much background. Perhaps put the objects on your eye level so that they appear bigger and have more impact in your picture.

You can work in your sketchbook or on paper.
