Curriculum Intent

We intend develop our students to be inquisitive and curious about culture, knowledgeable and understanding, open-minded and courageous as they personally develop through their learning of Japanese.

How will we assess impact?

Our teaching encourages regular learning of key vocabulary and refinement of grammatical structures that are tested regularly. Vocabulary recall is developed via weekly 10-point tests. Teachers assess pupils less formally in class via the four skills of listening, reading, speaking and writing. Pupils work collaboratively in pairs and groups to constantly improve their speaking skills, providing peer feedback.

Each half-term pupils take an assessment in test conditions during lesson time. In January of the Upper Sixth pupils take a full-length IB-style examination, which helps to predict their final grade as accurately as possible and to offer the students an opportunity to experience the speed and attention to detail required in the examination. Both the written and reading papers also assess translation and the speaking examination covers the themes covered. The students will share their findings of the Independent Research Project as part of the speaking exam and discuss these with the examiner.
