

IB Ab Initio Japanese Upper 6th

Curriculum Intent

The Japanese department seeks to develop ambitious and resilient linguists who recognise their common humanity and strive to gain inter-cultural understanding and respect.

We aim to provide an understanding of Japanese in a range of themes from social changes, global issues and history which enables students to communicate effectively in authentic situations on their exchange visits and prepared for the challenges of developing the language at a higher level and with an aspiration to continue the language at University or to at least see its value in their future career paths. We intend develop our students to be inquisitive and curious about culture, knowledgeable and understanding, open-minded and courageous as they personally develop through their learning of Japanese.

新しい言語は、新たな人生の始まり。 – A new language, a new life. Proverb.

How will we assess impact?

Our teaching encourages regular learning of key vocabulary and refinement of grammatical structures that are tested regularly. Vocabulary recall is developed via weekly 10-point tests. Teachers assess pupils less formally in class via the four skills of listening, reading, speaking and writing. Pupils work collaboratively in pairs and groups to constantly improve their speaking skills, providing peer feedback.

Each half-term pupils take an assessment in test conditions during lesson time. In January of the Upper Sixth pupils take a full-length IB-style examination, which helps to predict their final grade as accurately as possible and to offer the students an opportunity to experience the speed and attention to detail required in the examination. The speaking examination takes place in February/March and requires students to discuss the themes covered and explore the cultural customs of the Target Language culture.

International Opportunities

Within the curriculum

- The IB curriculum is designed to deepen understanding and appreciation of Japanese culture and customs.
- Students are encouraged to research each theme beyond lessons and set work to ensure that they can draw on a wide knowledge of the culture and society.

Visits Programmes

- AES has a partner school in Tokyo.
- University visits or cultural day visits may be arranged.
