

IB Standard Japanese Lower 6th

Curriculum Intent

The Japanese department seeks to develop ambitious and resilient linguists who recognise their common humanity and strive to gain inter-cultural understanding and respect.

We aim to provide an understanding of Japanese in a range of themes from social changes, global issues and history which enables students to communicate effectively in authentic situations on their exchange visits and prepared for the challenges of developing the language at a higher level and with an aspiration to continue the language at University or to at least see its value in their future career paths. We intend develop our students to be inquisitive and curious about culture, knowledgeable and understanding, open-minded and courageous as they personally develop through their learning of Japanese.

How will we assess impact?

Our teaching encourages regular learning of key vocabulary and refinement of grammatical structures that are tested regularly. Vocabulary recall is developed via weekly 10-point tests. Teachers assess pupils less formally in class via the four skills of listening, reading, speaking and writing. Pupils work collaboratively in pairs and groups to constantly improve their speaking skills, providing peer feedback.

Each half-term pupils take an assessment in test conditions during lesson time. In June of the Lower Sixth pupils take a full-length IB-style examination, which helps to predict their final grade as accurately as possible and to offer the students an opportunity to experience the speed and attention to detail required in the examination.
